I hereby declare that the dog submitted for examination is the one described above and that all the given statements are true. I understand that the information obtained may be used for statistical or research purposes without disclosing the identity of individual dogs, and that this applies for both Open Register and Closed Register breeds. In any breed where the ANKC National Breed Council or breed clubs in all States have adopted an 'Open Register' policy in regard to inherited eye defects, I accept that the results for all dogs submitted for an ACES exam will be released to the public domain and may be published.

OWNER DETAILS:

Name P. BERMAN & K THOMPSON

Address 14 AERODROME RD

NABIAC Postcode 2312 State NSW

Identification confirmed ☑

DESCRIPTIVE COMMENTS

INHERITED EYE DISEASE STATUS

This section applies only to those breeds in which the named conditions are known to be inherited and which are listed under the Australian Canine Eye Scheme Schedule 1 on the date of examination. Results will be forwarded to the ANKC inherited diseases database but will be made public only for OPEN REGISTER breeds.

CONGENITAL (present at birth)		UNAFFECTED	AFFECTED
(CEA)	Collie Eye Anomaly	☐	☐
(MRD)	Multifocal Retinal Dysplasia	☐	☐
(TRD)	Total Retinal Dysplasia	☐	☐
(CHC)	Congenital Hereditary Cataract	☐	☐
(PHPV)	Persistent Hyperplastic Primary Vitreous	☐	☐
(PPM)	Persistent Pupillary Membrane	☐	☐
(G)	Goniodysgenesis	☐	☐

NON-CONGENITAL (appears later in life)		UNAFFECTED	AFFECTED
(GPRA)	Generalised Progressive Retinal Atrophy	☐	☐
(RPED)	Retinal Pigment Epithelial Dystrophy	☐	☐
(HC)	Hereditary cataract	☑	☐
(PLL)	Primary Lens Luxation	☐	☐

The age of onset of non-congenital inherited eye disease varies in different breeds and between individual dogs. It is therefore important to follow any advice given at the time of this examination with regard to the necessity for and frequency of eye examinations as set out in the 'Information for Owners' document available from AVA at **www.ava.com.au/aces**. **"Affected" signifies that there is visible evidence of the inherited disease(s) specified, whereas "Unaffected" signifies that there is no such evidence.**

I have examined the above animal (and confirmed its identity) under the Rules of the AVA-ANKC Australian Canine Eye Scheme, with results as shown. Interpretations of eye signs as reported in this form are those of the individual panellist and do not necessarily reflect the opinion of all registered specialists.

Signed ACES Panellist **Name (Block Letters)** ROBERTSON **Date** 24 / 8 / 20 08

DISTRIBUTION OF FORMS: WHITE – OWNER (OPTIONAL COPY TO OWNER'S VET), YELLOW – AVA, BLUE – ACES PANELLIST).
